Special screwed-in fastener with screw

Description

Special screwed-in fastener with steel screw for fastening of mineral wool and polystyrene in wooden and steel sheet substrates

Type of insulation material with which the fastener is to be used

Polystyrene foam

Mineral wool

Substrate

Timber
fiber-cement
board.

Steel sheet

Features and advantages of the product

KDH

KDHT

WSR

WDB

Support washer design

Universal application for installing commonly-used insulation material in timber and steel sheet substrates

Holding plate

To be used with a wide range of screws –allows for installing insulation materials of different thicknesses

Washer-integrated cap

Minimizes thermal bridging and seals connections
